Contents of Volumes 231–232

Vols. 231–232 **May 29 2000**

Special Issue: Water Repellency in Soils

Preface 1
Water repellency in soils: a historical overview
L.F. DeBano 4

CAUSES OF WATER REPELLENCY

Hydrophobic compounds in sands in New Zealand—extraction, characterisation and proposed mechanisms for repellency expression
D.J. Horne and J.C. McIntosh 35
Hydrophobic properties and chemical characterisation of natural water repellent materials in Australian sands
C.M.M. Franco, P.J. Clarke, M.E. Tate and J.M. Oades 47

ASSESSMENT OF WATER REPELLENCY

Approaches to characterize the degree of water repellency
J. Letey, M.L.K. Carrillo and X.P. Pang 61
Development and application of a new sessile drop contact angle method to assess soil water repellency
J. Bachmann, A. Ellies and K.H. Hartge 66
Water-entry value as an alternative indicator of soil water-repellency and wettability
Z. Wang, L. Wu and Q.J. Wu 76

OCCURRENCE AND HYDROLOGICAL IMPLICATIONS

Soil wettability in forested catchments in South Africa; as measured by different methods and as affected by vegetation cover and soil characteristics
D.F. Scott 87
Occurrence of soil water repellency in arid and humid climates
D.F. Jaramillo, L.W. Dekker, C.J. Ritsema and J.M.H. Hendrickx 105
Extent and significance of water repellency in dunes along the Dutch coast
L.W. Dekker, C.J. Ritsema and K. Oostindie 112
Water repellent soils as they occur on UK golf greens
C.A. York and P.M. Canaway 126
The role of soil moisture in controlling water repellency: new evidence from forest soils in Portugal
S.H. Doerr and A.D. Thomas 134
Wetting patterns and moisture variability in water repellent Dutch soils
L.W. Dekker and C.J. Ritsema 148
Hydrological implications of soil water-repellency in *Eucalyptus globulus* forests, north-central Portugal
A.J.D. Ferreira, C.O.A. Coelho, R.P.D. Walsh, R.A. Shakesby, A. Ceballos and S.H. Doerr 165
The erosional impact of soil hydrophobicity: current problems and future research directions
R.A. Shakesby, S.H. Doerr and R.P.D. Walsh 178

EFFECT OF FIRE ON WATER REPELLENCY

The role of fire and soil heating on water repellency in wildland environments: a review
L.F. DeBano 195
Water repellency by laboratory burning of four northern Rocky Mountain forest soils
P.R. Robichaud and R.D. Hungerford 207
Fire effects on infiltration rates after prescribed fire in Northern Rocky Mountain forests, USA
P.R. Robichaud 220

PHYSICS AND MODELLING ON WATER REPELLENT SOILS

Physics of water repellent soils
T.W.J. Bauters, T.S. Steenhuis, D.A. DiCarlo, J.L. Nieber, L.W. Dekker, C.J. Ritsema, J.-Y. Parlange and R. Haverkamp 233
Soil water content dependent wetting front characteristics in sands
T.W.J. Bauters, D.A. DiCarlo, T.S. Steenhuis and J.-Y. Parlange 244
The breakdown of water repellency and solute transport through a hydrophobic soil
B.E. Clothier, I. Vogeler and G.N. Magesan 255
Effects of soil water repellency on infiltration rate and flow instability
Z. Wang, Q.J. Wu, L. Wu, C.J. Ritsema, L.W. Dekker and J. Feyen 265
Modeling fingered flow of water in soils owing to wetting front instability: a review
G.H. de Rooij 277
Numerical simulation of experimental gravity-driven unstable flow in water repellent sand
J.L. Nieber, T.W.J. Bauters, T.S. Steenhuis and J.-Y. Parlange 295
Preferential flow in water repellent sandy soils: principles and modeling implications
C.J. Ritsema and L.W. Dekker 308

AMELIORATION TECHNIQUES TO REDUCE WATER REPELLENCY

The influence of clay type on reduction of water repellency by applied clays: a review of some West Australian work
I. McKissock, E.L. Walker, R.J. Gilkes and D.J. Carter 323
Clay spreading on water repellent sands in the south east of South Australia—promoting sustainable agriculture
M.A. Cann 333
Amelioration of water repellency: application of slow-release fertilisers to stimulate microbial breakdown of waxes
C.M.M. Franco, P.P. Michelsen and J.M. Oades 342
The occurrence and alleviation by surfactants of soil-water repellency on sand-based turfgrass systems
J.L. Cisar, K.E. Williams, H.E. Vivas and J.J. Haydu 352
Amelioration of water repellency in highly managed soils and the enhancement of turfgrass performance through the systematic application of surfactants
S.J. Kostka 359

FARMING STRATEGIES ON WATER REPELLENT SOILS

A multivariate framework for interpreting the effects of soil properties, soil management and landuse on water repellency
R.J. Harper, I. McKissock, R.J. Gilkes, D.J. Carter and P.S. Blackwell. 371
Management of water repellency in Australia, and risks associated with preferential flow, pesticide concentration and leaching
P.S. Blackwell. 384
Water repellency: a whole-farm bio-economic perspective
A.K. Abadi Ghadim. 396

BIBLIOGRAPHY

Water Repellency Bibliography
L.F. DeBano and L.W. Dekker. 409
